

TMG 317

Chemical name

Butyltin mercaptide

Composition

Mixture of Butyl mercaptan tin and 2-Butyl mercaptan tin.

Properties

Light yellow transparent oily liquid with a slight sulfide odor, soluble in various organic solvents and plastics.

Specification

Tin content (%)	17.3-18.5
Sulfur content (%)	9.5-10.5
Color (Pt-Co)	150
Low transparency	Qualified

Application

This product has good fluidity and strong thermal stability during PVC processing. It can be widely used in various rigid and flexible products, profiles, injection molded products, emulsions with superior stability and transparency.

Packaging

200kg, Plastic coated iron drum

Information concerning

- classification and labelling according to the regulations governing transport and hazardous chemicals
 - protective measures for storage and handling
 - safety measures in case of accident and fire
 - toxicity and ecological effects
- is given in our material safety data sheets.
